

The Best Thing About My Library Is.

People have different opinions about what the best things about Solana Beach Library are, and my opinion is that *librarians* are the best things about this library. I like librarians because they help find a book or just chat with me for a while. They keep me company at the library. Since I like the librarians, I decide to interview one! She'll tell us about librarians.

This librarian is Rebecca Lynn. She has been a librarian for ten years and has been working in Solana Beach Library for three years. When Rebecca was young, she couldn't afford to buy books so she depended on the library for books. She likes reading and her favorite book is Harry Potter and the Sorcerer's Stone. She recommends this book to kids because it is exciting and adventures so they will be encouraged to read more. She and the other librarians are always happily solving different problems like the roof leaking and customers problems. For example, there was a young adult who had overdue books for five years and he was so ashamed that he didn't returned the books! Then when he heard about fine free Friday, he returned them and was forgiven so now he is a happy customer again.

She is also very proud of the staff that works there! "If you want to be a librarian, you have to have a degree in college, to be neutral, and have a computer skill" she said, "But you especially have to like people such as kids, and you have to like to read. That way, you can be friendly to people and tell them your comments about the book if they ask." She also said that libraries long ago were very strict and the moment you came in they said 'SHHH! Be quiet!' Rebecca wants to improve the library to have a community room so people can do loud activities and not disturb people at the same time! Rebecca also told me that this library helps the school out like having school textbooks and lots of young adult books. The problem is, the economy is bad and more people go to the libraries and yet the library does not have enough funding to buy more supplies for the increasing demand from customers!

You should come to Solana Beach Library to meet all of the Librarians and check it out. The librarians are always helping customers out! Since I think the librarians are the best thing about the library, I want to help them by donating books to them. What about you? ☺
