

The Best Thing About my library Is.....

The best things about Descanso library are how they put up Descanso school's art work all around it. I also like how they made a teen room and a kids room or a reading room. My other favorite thing about it is that it is so close to the school so if you aren't done with your homework you can just go to the library.

Descanso library is cool because When you go there you can find pretty much any movie or book . and if you have extra time you can go into the teen room and play the wii or go in the kids room and play on the computer. And its cool how they still have the old library and I think its really cool how the old library is so small inside. I think its awesome how they have programs where you can paint and build things and how Kamryn Hill gets to read to the little kids. Those are my favorite things about Descanso library.
